TA65® MD for Skin

THE SCIENCE *of* Youthful Skin

Based on the advances in the emerging field of Telomere Biology, TA-65 for Skin benefits all skin types. Its exclusive patented formula is validated by multiple clinical research studies.

TA-65 for Skin: Fine Lines & Wrinkles

Provides the cosmetic benefits of cellular moisturization, color balance and a softening of fine lines and wrinkles. TA-65 for Skin is the first and only skin care product that contains the proprietary TA-65 compound to target skin concerns.

TA-65 for Skin: Free Radicals

Helps to fight free radicals and support physiologically balanced oxidation in the skin. Free radicals, commonly referred as Reactive Oxygen Species (ROS), damage cellular components, including vital proteins and lipids, resulting in the appearance of age spots and wrinkles. Daily use of TA-65 for Skin can help to minimize, or eliminate these negative effects, while helping to promote healthy, younger looking skin.

TA-65 for Skin: Improves the Appearance of Aging Skin

Helps to significantly reduce visible signs of aging. Overexposure to UV (ultraviolet) light causes pre-clinical, not yet visible or noticeable damage to the skin. Pre-clinical damage greatly attributes to eventual age-associated cosmetic skin problems. The skin uses antioxidants to protect itself from harmful UV rays. TA-65 for Skin, a plant-based ingredient, helps to refine the complexion and improve uneven blotchy skin tones. Also provides a smooth foundation prior to make-up application.

BENEFITS:

- HELPS DIMINISH FINE LINES AND WRINKLES
- HELPS DIMINISH THE VISIBLE SIGNS OF AGING
- HELPS DIMINISH BLOTCHY SKIN TONES
- HELPS PROMOTE HEALTHY, YOUNGER LOOKING SKIN
- HELPS TO INCREASE SKIN FIRMNESS AND TONE

PRODUCT FACTS:

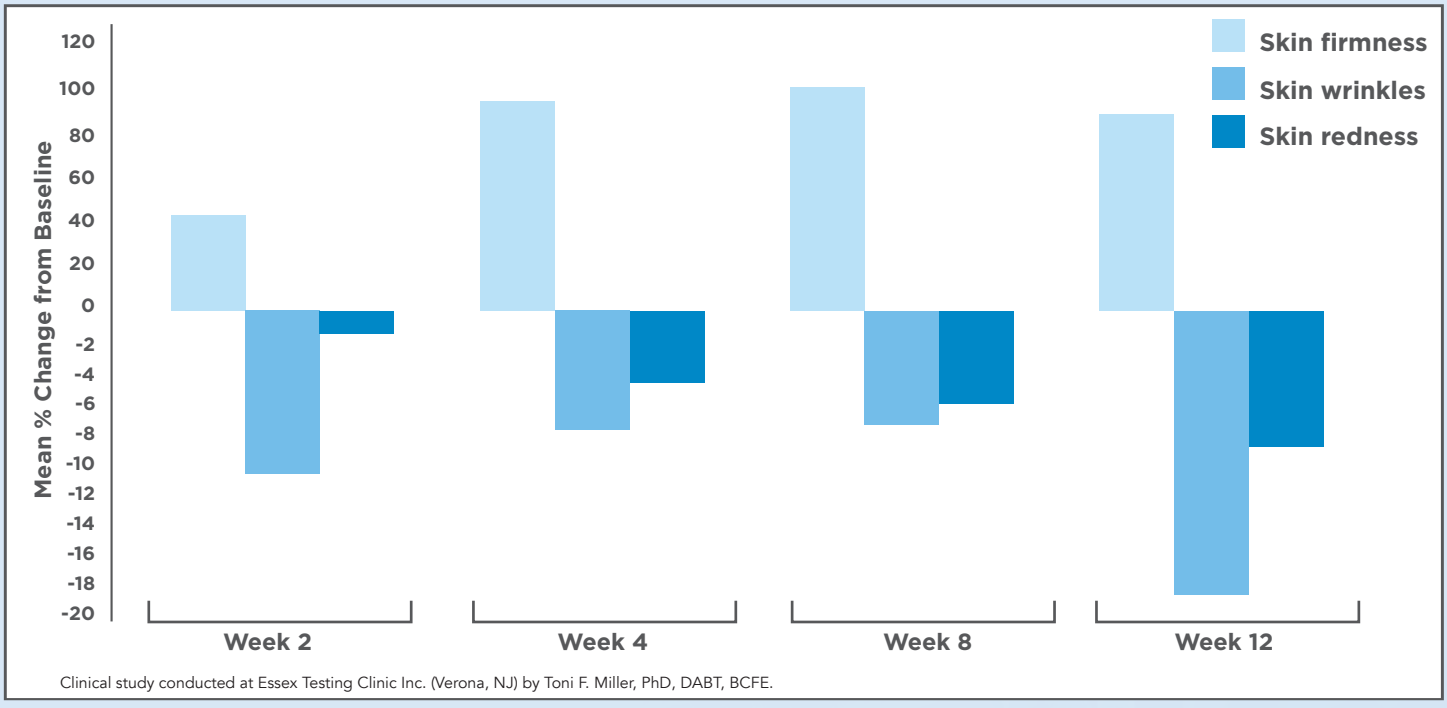

TA-65® FOR SKIN

- GRADUAL RELEASE FORMULATION
- PATENTED TECHNOLOGY
- DERMATOLOGIST-TESTED
- FOR ALL SKIN TYPES
- PARABEN-FREE
- LASTS 4 MONTHS (USED DAY & NIGHT ON FACE/HANDS)
- FRAGRANCE-FREE

CLINICAL STUDIES:

Randomized study of 54 female subjects shows that application of TA-65® for Skin for 12 weeks improved skin firmness and the appearance of redness and wrinkles.

Clinical study conducted at Essex Testing Clinic Inc. (Verona, NJ) by Toni F. Miller, PhD, DABT, BCFE.

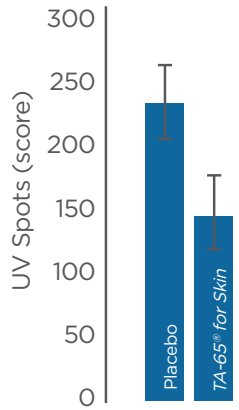

Study Results After 12 Weeks:

- Significantly improve skin firmness by 89%
- Significantly reduce Crow's feet, fine lines and wrinkles by 18%
- Reduce skin redness by 9%

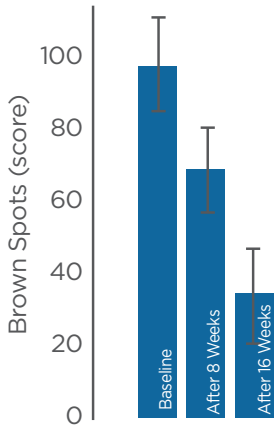

TA65® for Skin

Demonstrated Improvement of Prematurely Aged Skin with *TA-65® for Skin* (n=35)

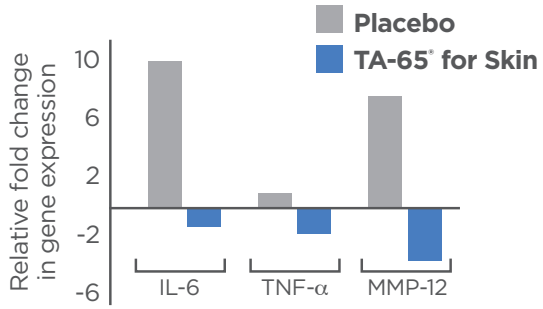

TA-65® for Skin reduced pre-clinical damage after 8 weeks' application

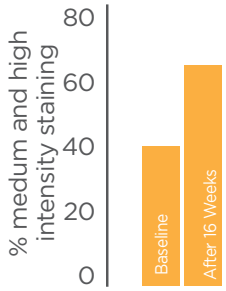

TA-65® for Skin reduced uneven pigmentation

Expression of inflammatory cytokines and protease declines after 16 weeks' use of *TA-65® for Skin*

Collagen level increases after 16 weeks' use of *TA-65® for Skin*

TA-65® FOR SKIN HAS BEEN CLINICALLY SHOWN TO:

- Reduce pre-clinical damage
- Reduce uneven pigmentation
- Increase collagen levels
- Reduce inflammation associated with premature aging of the skin
- Reduce degradation of elastin fibers (elastin improves skin firmness and elasticity)

Randomized, placebo-controlled, double-blind study of 35 subjects with prematurely aged skin shows that *TA-65® for Skin* reduces pre-clinical damage and uneven pigmentation. The efficacy of the tested products was objectively analyzed before and after four, eight and sixteen weeks' of use.

Clinical study conducted at The Stern Center for Aesthetic Surgery (Bellevue, WA) by Dr. Fredric Stern, MD., FACS.
